The Third Plate is a 2014 novel about cooking and its relationship to ecology by contemporary chef Dan Barber. In it, Barber argues for a new way of thinking about food that he believes will be the future of dining in America. Backgrounding his argument, he traces the evolution of American food starting with the main “plates,” or conceptions of the meal, since the Industrial Revolution: the first was highly industrial and meat-heavy, due to factory farming; and the second involves more ...
