Picture books are relatable and living. While technical picture books with plenty of diagrams of the human body, trees, animals, or electrical circuits have their place, the picture books I am talking about are those with beautiful language that make relating to a subject happen naturally. Because picture books are shorter than their living historical fiction or living science chapter book ...

What is lovely about this book is that the monster starts off being a mix of colours, and children help sort his mixed emotions into their primary jars. This is a wonderful way of helping children separate their feelings during times of confusion, and gives them easy labels to help understand the array of emotions that can often erupt at once.
