I only read economics and political books that are relevant to our current political and economic systems. I only read stuff that actually talks about feasible things. I'm interested in reading the works of more historical socialists like Marx, Proudhon, Owen etc but I don't want to anything that isn't going to be relevant to our current times. You know this was a period when they didn't have ...

This review examines the relationships between politics, sustainability, and development. Following an overview of sustainability thinking across different traditions, the politics of resources and the influence of scarcity narratives on research, policy and practice are explored. This highlights the politics of transformations and the way these play out under combinations of technology-
