Project success is often gauged by how well a project meets a stakeholder's expectations. But since projects usually involve more than one stakeholder, and thus accommodate multiple--sometimes conflicting--expectations, project managers must continuously accomplish the near-impossible: Deliver an outcome that meets the needs of many individuals.

The present edition of this novel contains a few pages that have never appeared in any previous edition. When the detached episodes were collected as stated in the preface of 1891, these pages were overlooked, though they were in the original manuscript. They occur in Chapter X. Respecting the sub-title, to which allusion was made above, I may add that it was appended at the last moment, after ...
