The official Musso website and the instruction manual states that the Lussino has a motor capacity of 200 Watts. However, beneath the machine there is a sign stating that it has a 100 Watts capacity, which seems very low. Since it is such a fast freezing machine it seems weird if it would have such a low motor capacity as 100 watts. As far as I can see it seem that smaller motor capacity ...

New for 2020, and now on sale in the UK, is the so-called 'longbed' version of the SsangYong Musso, which redresses that pickup's only real weak area: its small load area. Officially called the SsangYong Musso Rhino LWB, this comes with more kit than the standard models, has huge payload and towing potential, and is very attractively priced. There have been major updates to three major pickups ...
