Thus, philosophy and religion, reason and faith, inhabit two distinct and exclusive spheres, and neither should tread in the domain of the other. The freedom to philosophize and speculate can therefore be granted without any harm to true religion. In fact, such freedom is essential to public peace and piety, since most civil disturbances arise from sectarian disputes. The real danger to a ...

Spinoza's philosophy contains as a key proposition the notion that mental and physical (thought and extension) phenomena occur in parallel, but without causal interaction between them. He expresses this proposition as follows: *The order and connection of ideas is the same as the order and connection of things.* (E2P7) His proof of this proposition is that: *The knowledge of an effect depends on ...*

The realms of philosophy and religion have sometimes intersected in conducting inquiries such as these. As with philosophy, the study of religion underscores how humankind has long speculated about its origins. The possibility of a higher being (or beings) to which livings things owe their existence has long captived human thought. Many religions also offer their own views on the nature of ...

Spinoza couldn't be clearer on this in a letter to Jacob Ostens, his most forceful rejection of the charge of atheism: Does that man, pray, renounce all religion, who declares that God must be acknowledged as the highest good, and that he must be loved as such in a free spirit? And that in this alone does our supreme happiness and our highest ...

Immanuel Kant: Philosophy of Religion. Immanuel Kant (1724-1804) focused on elements of the philosophy of religion for about half a century—from the mid-1750s, when he started teaching philosophy, until after his retirement from academia. Having been reared in a distinctively religious environment, he remained concerned about the place of religious belief in human thought and action.

But he took religion, and religious awe, very seriously, even if Spinoza's God is indistinguishable from nature. To imagine that this great, mysterious entity should bend the rules to suit our individual needs and desires constitutes a "deeply distorted, infantile narcissism" in Spinoza's estimation, says de Botton.
