- How It Works

Bike lanes enable bicyclists to ride at their preferred speed without interference from prevailing traffic conditions and facilitate

File Type PDF Traffic Signal Program User Guide

predictable behavior and movements between bicyclists and motorists. A bike lane is distinguished from a cycle track in that it has no physical barrier (bollards, medians, raised

File Type PDF Traffic Signal Program User Guide

***curbs, etc.) that restricts the
encroachment of motorized
traffic. Conventional bike ...***
